

THIS? OR HISCOX BUSINESS PROTECTION!

Protect yourself and your business from the myriad risks threatening the ICT industry.

All the information you need about
Hiscox insurance products.

**HISCOX**

Your safety net: The Hiscox Insurance Solution for ICT companies

We are well aware of the risks you face: For over 20 years, we have been insuring companies in the IT sector and regularly adapting our insurance solutions to market needs. We guarantee that you only pay for what you really need by tailoring Hiscox insurance coverage individually and appropriately for your business:

- **Professional Liability Insurance for IT:** Offers protection if you make a mistake that costs others money.
- **Optional: Business Liability Insurance for IT,** which covers personal injury and property damage.
- **Optional: Cyber Insurance** that reliably covers digital risks.
- **Optional: Electronic and Office Contents Insurance** to protect your equipment and office furnishings.

Your TOP 5 business risks

- **Damages due to project delays, failures, or cancellations,** e.g., due to unexpected complexity or staff illness.
- **Infringement of third-party rights,** such as copyright or trademark law.
- **Poor performance/faulty advice** leading to a client's compensation claim.
- **Cyber-attacks** can bring your business to a standstill overnight.
- Rapid growth and innovative technologies like **artificial intelligence** pose new risks.

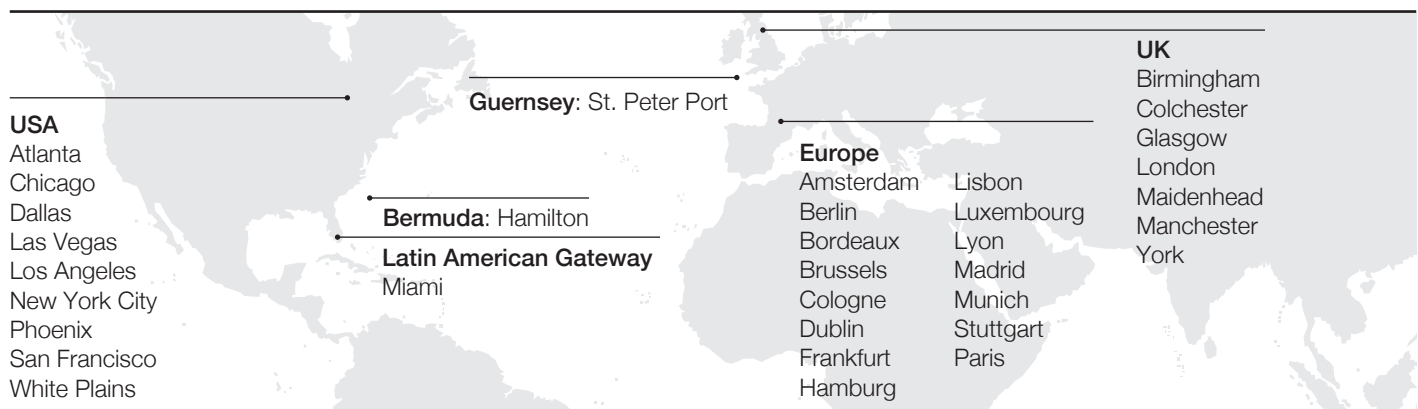

Further important information on your risks and cover can be found at hiscox.de/business-protection
